

Dear Colleagues,

I am honored to invite you to participate in "Medipol Ozone Days-the first international academic ozone course", organized by Medipol University.

The course will take place on November 6-8, 2014 at Medipol University Mega Hospital, Istanbul, Turkey. During first two days introduction to ozone, applications of ozone for patients, use of ozone for non-patients will be discussed; also clinical applications will be performed. Third day, live-cases from operation theatre for interventional pain treatment will be done.

If you have not been introduced to ozone yet, or if you want to improve your knowledge & practice with ozone, it is right time. World-wide well-known international ozone therapy scientists will be here to introduce you the new era of patient's treatment. It will be great opportunity for you, the attendee, after the course besides obtaining a full understanding of the background biochemical, immunological, and physiological effects of ozone therapy; also you will be able to do these treatments and clinical applications following internationally accepted protocols for the safe and effective use of Ozone.

In order to apply course & learn about course capacity and fee please contact with me. Also, in case you have further inquiries regarding to accommodation in and flights to Istanbul, please do not hesitate to contact with me.

We look forward to seeing you in İstanbul!

With regards,

Arzu Irban
