

30th January, 2013.

Ozone therapy is an incredible rejuvenator, normalizer, detoxifier, regenerator, immune enhancer and physical and mental energizer. **It is used as supportive therapy**

Ozone Forum of India, a non-profit organization, has been educating doctors in the field of Ozone Therapy since 2003 by holding conferences, educational seminars and training programs periodically for knowledge dissemination and sharing. We have successfully trained 455 doctors in applications of Ozone therapy. We create awareness with the public along with doctors of all faculties about natural healing aspects of Ozone Therapy in various diseases, thus helping the classes and masses by easing them of their medical diseases.

In our continuous efforts of promoting Ozone therapy this time we are empowering our doctors with holistic integrated approach towards medicine.

We welcome the medical fraternity for our forthcoming national conference on:

Benefits of Ozone Therapy with Integrated Medicine
